Thanks. Valid points. Even if we keep as two documents, I would hope they would read like they're harmonized. Mayl would be less than the additional time it would take to conduct interagency review and/or respond to the interagency co

Deb, Becki: Thoughts?

Carol R is on vacation until Saturday. I think there are a couple of downsides- 1) Rfc may run into snags at OMB, 2) IUR might have different issues with groups that think is incorrect due to it not being more stringent than the present IRIS value, and 3) extra time it might take to combine two documents.

Call me on my cell 303-519-9825 if you want to talk today. Otherwise I will be in on Friday. cc
